2012 SUMMER STUDY: EQUINE SUMMER PROGRAM

Available exclusively through Adelante, this 4 week program is a unique opportunity for animal science majors, veterinary students or anyone interested in equestrianism.

Study in the countryside just outside Edinburgh at Oatridge College, home of the Scottish National Equestrian Centre. The Centre has one international class indoor arena, a six furlong all weather gallop and an extensive acreage of good riding country. The centre annually hosts a British Eventing one-day-event.

4-Week Summer Program:

May 27–Jun 22

Take courses in Equine Anatomy & Physiology and Equine Fitness, while gaining practical experience working with horses.

In addition to classroom instruction, students will be involved in practical and hands-on experiences, with the opportunity to discover equestrianism 'British' style, and experience both classical and English-style riding skills.

Also included is an educational program of visits to several of the main cultural sites of Scotland and the internationally recognized Royal Highland Show.

"Best experience ever, I would highly recommend it. Scotland is gorgeous, the courses were fun, everyone at the college was friendly and I made some really good friends there."

Lauren, Southern Illinois University. Scotland 2011

"I gained a better understanding of the equine industry abroad, as well as the differences in education abroad. I really liked the education that I got, but I loved the social portion and the people I was able to connect with. I made friends in this program that I intend to keep for life."

Julia, William Woods University. Scotland 2011

"If you love animals go on this study abroad trip you will not regret it. The college is amazing and everyone is super nice and you won't get the same experience anywhere else."

Andrea, Louisiana State University. Scotland 2011
